About This Game

About the game:

In the future where human's science and technology are in conflict with the ethics, what will happen between the machine elites with advanced AI and the transformed human in the project code-named "Gold Express"? All of these are on your decision, my player!

Different victory goals:

The Escapers need to extract data assets and upload them to a drop cabin in specific locations in order to free themselves; the Predator needs to constantly try to predict the opponents' actions and use special skills wisely to achieve the ultimate goal.

Strategic survival gameplay

The building's structure and furnishing on the game map often have tactical significance, and the appropriate use of them can get twice the result with half the effort. Both sides can control the variable elements in the map to form parts of terrain advantages.

Unique character images

Transformed humans are carrying extraordinary missions, their skills have their own advantages. Choose an elite that suits you, fight alongside with him in the project code-named "Gold Express"!

Upgraded combat pace and optimized network

The intense competition and stable network will bring you a smooth gaming experience. Now, step into the frenzied arena and start your fateful journey!
