If I'm going to be honest, this game is simply dumb.

I finished it in less than an hour, and did not enjoy it. This game could have been really good if they actually decided to focus more on the gameplay, and less on the 1000 achievements.

This game mocks you. It gives you 6 achievements just for clicking on something, 6 more for opening a level, and 6 more for completing. Getting to the end of a level should feel rewarding, not shoving some Steam badges in your face.

Overall, I have to give this game a negative rating. All you have to do is click the right cubes for an hour. If they added in some more obstacles and features to make the levels more difficult, I would think differently, however it's definitely not worth the \$1 I wasted. Don't buy.. WoW! 1708 achievements -.0

Every achievement hunter wet dream!. The moment the achievement counter in your profile becomes ironically useless.

The game is actually fun, but with Zup! 3 they completely exaggerated with the mere number of achievements.

PS: Since most of the achievement hunters own the series, it was kind of a peer pressure to get it them myself. Where I like some easy achievement games from time to time, putting over 1700 achievements in one game with the playtime of not more than 1 hour is simply a slap into the face of every honest achievement hunter on Steam. It's an irony and they crooked the system. Fair enough.. More of the same, which isn't a problem. The 1,708 achievements are ridiculous though. 14 variations of each one you get. There was a constant stream of cheevie pop ups throughout the whole game. Still though, a fun and cheap game.. 1708 of the easiest achievements ever!! And somehow one of the most addicting games you'll ever play lol.

A lot of people will find that this game is really a achievement hunter game. (You got tonnes of achievement when you complete the game). But i find the gameplay is minimalist, fun and challenging. Not a no brainer game. Recommended for all achievement hunter, and gamers who want to find different game to play.. yep I would like to say ..

Most of people just need the archievement >.< including me.

Zup isn't a difficult game.

Cheap.. this game is usefull for achievement showcase. The main aim of this game is, of course, to get the achievements in order to use their images (marks, letters and numbers) in order to adorn your Steam profile. I made it to the end and actually some levels weren't that easy!.. ZUP! 3 in a nutshell - Perfect game for platinum.

ZUP! 3 em poucas palavras - Jogo perfeito para platinar.. Great game, 1708 achievments in 30 minuts and cards ! take it!. Achievement Farming Simulator 2017. I actually didn't enjoy this one very much (compared to Zup! and Zup! 2). I felt like a lot of the levels were rehashed, or at least too similar in style. I honestly felt like I was playing the same level over and over again near the middle of the game. The new clickable white boxes didn't really add much depth to things, only small annoyances that left for way too many retries.

As far as difficulty goes, the game has a steeper curve than the previous two installments, but again, I feel like it's for the wrong reasons. Poor/rehashed level design, unreliable patterns, and minimal innovation.

I'd still recommend the game if you're a collector of sorts, but I would say play Zup! and Zup! 2 first to get a better grasp on my critique.. Amazing achievement drop simulator
